

GRIPCON

When embedded in concrete, cellular plastic or other building materials, products from GRIPCON® provide anchoring for all types of bolted joints, even if the screws need to be removed and attached again. GRIPCON® provides secure anchoring regardless of the number of times a screw needs to be refastened

Property	Value
Environmental Resistance	High
Standard Length / M	2
Melting Point / C	150
Extraction test for Anchor Screw /kN	0.72
Thermal conductivity / W/m2	37.1
